PRESS STATEMENT.

CONSUMPTION BREAK

Following the recent death of statesmen, prominent musicians, Pastors and close officials of our noble association which has placed us in a state of mourning for the past few weeks which led to the increase in consumption of beverages by our members, we the beverage consumers and bar owners of Ghana also known as the drunkards association would like to go on consumption break from 10th to 17th of November 2025 to enable our 16.7 million members reflect on their lives and also use the opportunity to go for medical screening to ensure their well being. We're also entreating all members to use this period to engage their respective religious leaders to pray for the nation and the President H:E JOHN DRAMANI MAHAMA and leaders of the association and it's president to continue working hard to ensure that the better Ghana agenda is achieved. We're also cautioning members to be vigilant and ensure that products are well approved by the food and drugs authority before consuming ahead of Christmas and new year festivities.

The association and its leaders will continue to appreciate all bar owners across Ghana who always adhere to the directives of the organization in ensuring responsible drinking among members.

We're also appealing to government to support us with reflectors to enable the visibility of members when crossing the roads at night. Longlive Ghana Longlive our association.

Yours Faithfully,

Moses Onyah.

President.
